

ADOPT DON'T SHOP

ARE YOU READY FOR ANOTHER FAMILY MEMBER?

Adopting a cat is a big commitment – animals need more than love to be happy. You need to take time to consider if an animal would be right for your family. Most cats will live between 10 and 20 years and will require a regular checkup at the vet, which can be expensive. If your family is ready for a companion animal, always choose to adopt!

THREE REASONS WHY ADOPTING AN ANIMAL IS WAY COOLER THAN BUYING ONE:

1

YOU SAVE A LIFE

There are many homeless animals in Aotearoa. These animals need love from someone like you.

2

YOU WILL BE AN INSPIRATION

Adopting rather than buying a furry friend shows how much you love animals no matter where they have come from or what they look like. You can encourage others to do the same by showing them just how rewarding adoption can be.

3

YOU SUPPORT AN ANIMAL CHARITY

Charities who rehome animals need your help. By adopting a friend from a shelter, you support them so they can rescue even more animals!

NO MATTER THE CAT

ALL DESERVE LOVE.
